

PA7 Auto Driving Floor Scrubber Cleaning Machine

Part I: Product Introduce

PA7 Auto Driving Floor Scrubber Cleaning Machine can automatically adjust the adhesion and pressure of the brush disc; the noise is low, the function key is easy to understand, and easy to operate. 860mm cleaning width and 130L large water tank, it's suitable for large and medium scale site cleaning. PA7 has a small turning diameter, the best maneuverability in a narrow area, and small limitations in the use area, which is suitable for more different working environment requirements.

Part II: Performance Characteristics

1. Soft start-up motor, makes very low noise and protects the motor well.
2. Protecting device for suction motor, automatically stops the scrubber once the sewage tank is full.
3. Keep operators focused on their cleaning environments with clear sight lines and simple controls.
4. Strong power and large water tank which make cleaning work efficient up to 5500 m²/h.
5. Suitable for factory workshop, warehouse, supermarket etc. cleaning work.

Front drive is strong and reliable power

Control system, easy to operate

Adjustable earth pressure system, Suitable for multiple sites

Tank equipped with a water level sensor and will auto stop when the water is full

Batteries with large capacity and long standby

Unique water absorption system, large body, small decibel, 58db

Part III: Why choose us?

1. We have our own factory to manufacture cleaning machines, which makes us have more competitive price, short delivery leadtime and prompt reaction service to customers.
2. Experienced engineers, QC, well-trained workers. To guarantee all the products quality are excellent when arrive to your hand.
3. We offer OEM services. Accept you wanted color machines, your own logo, customized labels, manual books and other requirements are can be satisfied.
4. Great export experience for sales & after-sales, no matter you are end-user, distributor or retailer, welcome here, own us high-quality service now, Pivot is your ideal choice!
