Carpet Dry Machine PD400

Introduction

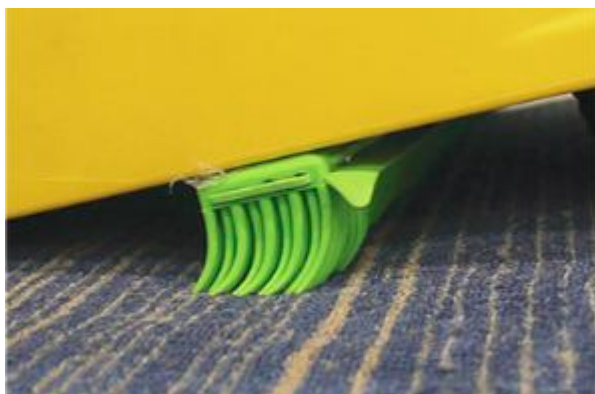

Carpet Dry Machine PD400 is a high performance carpet dryer to dry carpet quickly. Intelligent operation, simple and easy with wide application.

Technical Data

Model	Voltage/Frequency (V/Hz)	Power (W)	Vacuum Suction(Kpa)	Hot Air Flow(m3/min)	Hottest Air Temperature(°C)
PD400	220/50	1200±8%	≥22	6	60

Noise (db/m)	Power Cable Length(m)	Power Cable Tension (N/min)	Voltage Resistant Detection (mA)	Motor Life(h)
≤78	10±3%	≤3	1	600

Features

Comb hair treatment to form a smooth air duct. First of all, the clean carpet fluff is combed through the brush of the book, and the trend is unified and the effective air duct is formed.

Large air volume inhalation, residual detergent and moisture. Small incision and high pressure scraping can more effectively peel off the deep moisture of the carpet and pile up and collect it in front of the suction.

Heating and drying, evaporation of surface moisture. Using the heat generated by the high-speed impeller, through the front section, the suction mouth of the carpet drying.

Stain observation window
Know carpet humidity and contamination.

Application

Suitable for office, restaurant, corridor, etc..

For passageway carpet

For dining room carpet
