Dual Brush Walk Behind Scrubber PA860/660

Product Introduction:

With dual brushes PA860 is an easy-handling machine for large and medium area with low operating cost. This machine is self-propelled which can save cleaning workload greatly. The dual brushes enhance the cleaning efficiency and save the cost. Equipped with powerful electronic controlling system, scrubbing and drying functions can be operated easily. Due to the polyester water tank and rear control panel, the machine has lower sound level.

Features

1. Easy-handling machine for large and medium area with low operating cost.
2. It is self-propelled which can save cleaning workload greatly.
3. Equipped with powerful electronic controlling system, scrubbing and drying functions can be operated easily.
4. Lower sound level due to polyester water tank and rear control panel.

The water tank has dual outlets, easy to clean the inside. The PE material is very solid, shock-absorbing and antiseptic.

The water sucker can swing with the machine, with fender wheels. It can be fed different hardness sucker stripes.

The driving wheels are made by PU material with antiskid and traceless design; they can ensure the machine walk very smoothly and steadily.

High capability battery group supporting 4 hours normal using and large-scale water tank, keep the durable working.

Integrate-designed, each part is easy to be disassembled and maintained. The repair and maintenance can be accomplished shortly, would not take up normal working time.

Outlaid clean water level display tube shows the water level clearly.

Product Parameter

Technical Data	Voltage	Cleaning Width	Suction Width	Area performance	Brush Motor	Suction Motor	Water Tank	Dimensions
Unit	V/AH	mm	mm	m ² /h	W	W	L	cm
