

## P-1900 Electric Sweeper

### The Core Technology

1. 800W vacuum motor, 8sq.m large filtering area, with strong negative pressure centrifugal aluminum blades, higher than the same type sweeping machine with double dust collection efficiency, specialized to solve the problem of the dusty environment.
2. Adopt the latest brushless ac motor, can choose 1.5kw to 7.5kw high-power drive motor, maintenance-free, stepless gearbox, ensure the power output is strong and stable, can climb the hill for a long time.
3. Sweeper wiring harness conforms to TS16949 Standard with reliable power supply, all key connectors are retardant and waterproof.
4. This function, combined with the on-board controller, has the self-braking function on the upper ramp to prevent slope sliding and the anti-impact deceleration function on the lower ramp to maximize the driving safety of operators and the safety protection of pedestrians around.

### Performance Parameters

S/N	Item No.	Unit	Specification
1	Sweeping width	MM	>1900
2	Productivity	m <sup>2</sup> /h	>13000
3	Climbing capacity	°	>25
4	Main brush's length	mm	700
5	Side brush's diameter	mm	500
6	Power supply	v	48
7	Continuous working time	h	6-8
8	Waste hopper capacity	L	180
9	Capacity of water tank	L	120
10	Driving power	w	1800
11	Operation power	w	700+500+100*4+50
12	Turning radius	mm	1200
13	Max working speed	Km/h	7
14	Max driving speed	Km/h	9.9
15	Filter	m <sup>2</sup>	8
16	Dimensions(L/M/H)	mm	2200*1900*1900

### Performance Features

1. With the first advanced three-wheel sweeping vehicle sweeping module system in China, the cleaning function is integrated and the cleaning ability is stronger.
2. The vehicle is made of aluminum alloy body, which is durable and reduces the weight of the body.
3. Adopt fully enclosed cab to avoid the influence of bad conditions such as weather and noise on the cleaning work.
4. Humanized design concept provides safe and comfortable operating environment for users.
5. Adopt 48V free maintenance battery for power, energy saving and environmental protection, continuous use time longer, optional lithium battery.
6. The ground machine wire hardness conforms to the TS16949 standard, the power supply is reliable, and all connectors of the key connector are flame retardant and waterproof.

7. It has the advantage of long service life, stable performance, high speed regulation accuracy, high speed regulation ratio, hard output characteristics and stable operation.
8. Large capacity water tank can be used for long time.
9. Optional PFC charge.

Wear-resistant brush + dual nozzle  
International advanced motor  
Automatic lifting

wiper  
Easy operation and easy adjustment

Double disc brake  
Cars are equipped with standard deceleration and acceleration technology

Equipped with small electric fan

Simple operation key

Plush leather comfortable seats  
The kit comes with the car

Roll plastic 80L water tank

Electric control fuse

1800W drive motor
