Product Introduction

High Pressure Washing Tricycle P13 is a product specially designed for municipal sanitation, road cleaning and outdoor cleaning. This product features: beautiful appearance, simple operation, high power and strong output. The core components of the product are from domestic and overseas well-known brands, the quality is guaranteed, safe and reliable, and the failure rate is low. Strong high-pressure washing system can effectively remove road surface, building dust stains, and can effectively clean sanitation stations, buses, engineering vehicles, etc. It can achieve a multi-purpose, is ideal product for municipal sanitation, industrial and commercial cleaning, construction industry and mining enterprises clean.

Product Characteristics

The whole vehicle adopts the parts of Jinpeng chassis, Italian AR pump, and Honda engine. It has the characteristics of high pressure, large flow, compact structure, long service life, fast response, etc. The vehicle head adopts a streamline design concept, and is provided with a bumper, is strong and heavy, and is novel and beautiful. The front fork has the advantages of hydraulic outer spring shock absorption, comfortable driving, high anti-seismic strength, excellent performance and safety and reliability of heavy load. Arrange super-large water tank is arranged to increase working time.

Stainless steel outer cover

Rolling plastic water tank

Product Parameters

Product Model	P13	Max Speed	30km/h
Pump Max Flow	15L/min	Water Tank Capacity	750L
Pump Max Pressure	25MPa	Battery	60V45Ah-5PCS
Oil Tank Capacity	35L	Water availability time	30-50min
High Pressure Hose	15m self-rolling hose	working device Start-up mode	Manual/ Power-operated

Applications

Station, airport, hotel, hospital, landscaping, shopping mall, property, factory, logistic center, parking area, sport stadium, etc.
