Powerless Spray Manual Floor Sweeper PM920S

Introduction

Powerless Manual Floor Sweeper PM920S is a new generation of sweeper designed for cleaning more dust, easy to raise dust and so on. The two sprinklers at the front end of the machine emit high pressure water fog, and the high pressure water fog falls to the ground quickly after the combination of high pressure water fog and dust produced by the front brush. With the work of the front brush and the main brush, together with garbage and dust, it can not only solve the dust problem of the front brush, but also achieve better cleaning effect.
