

## High Pressure Car Washing For Road P11

### Part I: Introduction of high pressure cleaning car

High Pressure Washing car P11 is a product specially designed for municipal sanitation, road cleaning and outdoor cleaning. Strong high-pressure washing system can effectively remove road surface, building dust stains, and can effectively clean sanitation stations, buses, engineering vehicles, etc. It can achieve a multi-purpose, is ideal product for municipal sanitation, industrial and commercial cleaning, construction industry and mining enterprises clean.

### Part II: Features of high pressure washing car

- 1.The whole vehicle adopts the parts of Italian AR pump, and Honda engine.
- 2.It has the characteristics of high pressure, large flow, compact structure, long service life, fast response, etc.
- 3.The vehicle head adopts a streamline design concept, and is provided with a bumper, is strong and heavy, and is novel and beautiful.
- 4.The front fork has the advantages of hydraulic shock absorption, comfortable driving, high anti-seismic strength, excellent performance and safety and reliability of heavy load.

**Stainless steel outer cover**

**Rolling plastic water tank**

### Part III: Technical parameter

Product Model	P11	Max Speed	33km/h
Pump Max Flow	15L/min	Water Tank Capacity	500L
Pump Max Pressure	25MPa	Battery	60V45Ah-5PCS
Oil Tank Capacity	35L	Water availability time	30-50min
High Pressure Hose	15m self-rolling hose	working device Start-up mode	Manual/ Power-operated
