

Tractor Snow Sweeper PT668

Product Introduction

This machine is 20HP small type Tractor Snow Sweeper.

The purpose of driving snow sweeping can be achieved by adding an engine and hydraulic transmission mechanism to connect a 180 cm snow sweeping brush, which can greatly improve the speed and efficiency of snow sweeping, and the driver can easily operate the equipment.

At present, two snow seasons have been tried out in airport customers, which have been used to clean up a large area of snow on the airport, and good results have been achieved.
