## Dual Brush Walk Behind Scrubber I BA860BT/BA660BT

### Features:

With dual brushes, BA860 BT is an easy-handling machine for large and medium area with low operating cost. This machine is self-propelled which can save cleaning workload greatly. The dual brushes enhance the cleaning efficiency and save the cost. Equipped with powerful electronic controlling system, scrubbing and drying functions can be operated easily. Due to the polyester water tank and rear control panel, the machine has lower sound level. Moving forward, backward and the brushes can be controlled by the operating handle.

With large opening, the sewage water tank is easy to be cleaned. The polyester material makes the tank very strong, shock-proof and anti-corrosive.

The squeegee can swing easily to different direction. Anti-collision wheels are available, squeegee blades of different hardness are selectable.

The non-marking rear wheel is skid-proof which makes the machine running steadily during work.

Equipped with high-capacitance battery kit and large water tank, this machine can work

continuously over 4 hours.

Integrative designed dual brush head, its very easy to replace and maintain the spare parts.

Special designed filling hole ensure easy filling of fresh water. Filter screen is available.

With a filter to filter stains

Double-brush design for higher cleaning efficiency

Perfect protection for motors

External clear water tank water level display tube for better control of cleaning

Perfect protection for motors

4 maintenance-free batteries are durable and require no manual maintenance
