Manual Snow Sweeper PN100 (102 cm)

Product Introduction

Small Manual Snow Sweeper PN100 is a high speed snow sweeper. Its transmission system is bigger than similar products. Its output power is stronger and the snow sweeping is more effective. The starting mode of electric starting and manual starting makes the operation easier. The replacement of sheet brush is more economical and convenient than that of rolling brush of similar products. The PN100 snow sweeper can sweep an area of 3500 square meters per hour. This is the main product of our company.
