Electric Sweeper G-1900

Product Introduction

The G-1900 is a long-extended sweeper. It can achieve maximum distance light cleaning and has a strong cleaning ability. The body structure is stable and solid, with sunshade, and strong ability to adapt to the various environment. The body is equipped with a side brush with lift arm, which can be swiped to any desired height to reach 360 degrees without dead ends.

Performance Features

- 1) The device is equipped with a car handbrake, which had excellent braking function. When travelling at full speed, the brakes can be braked within 2 meters and an emergency power-off switch is also equipped.
- 2) The lifting height of the front lifting arm can be located at any height within the stroke range, which is convenient to clean the uneven ground such as flower foundation, roadbed, shallow pit and so on.
- 3) The super-large filtration area of 7 square meters, combined with strong negative pressure centrifugal aluminum alloy blades, is twice as efficient as the same type of floor sweeper, and specializes in solving the problem of raising dust in a bad dust environment.
- 4) Equipped with a large rolling brush, as long as the roll brush and side brush to the ground to start sweeping work.

Performance Parameters

Data	Electronic control	Electronic control system		
	Battery	48V150AH(Famous Brands)		
	Motor	DC Brushless differential motor, Double disc brake		
	Battery Charger	Portable intelligent charger		
	System Voltage	48V		
	Traction Power	1800w		
	Cleaning Width	1700-2000mm		
	Side brush size	600*4mm	Main Brush Width	700mm
	Side Brush Motor	80w*4	Main Brush Motor	700w
	Suction Motor	600w	Dust Motor	50w
	Working Speed	12km/h	Filter Area	15m ²
	Bin	200L	Water Tank	80L
	Working Time	6-8h	Work Efficiency	12000-14000m ² /h
