It is widely used for outdoor cleaning of urban roads, sidewalks, pedestrian streets, squares, parks, parking lots, large residential property, shopping malls, hotels, factories, pavement.

Sweeping Width
2000-2300mm

Clean Capacity
19000m²/h

Working Time
6 ~ 8 H

Dustbin Capacity
240L Standard

Filter Area
14m²

Optional Color

Orange

Blue

ITEM	Value
Sweeping Width	>2100mm
Cleaning Capacity	>19000m ² /h
Main Brush Length	700mm*2
Side Brush Diameter	500mm
Power Supply	48V200AH Maintain-free battery / 300Ah Lithium
Filter Area	14m ²
Working Time	6 ~ 8H
Dustbin Capacity	Standard 240 L
Water Tank	100L
Max Driving Speed	35Km/h
Climbing Capacity	30-40% (Slope Degree)
Dimensions (L/W/H)	3800*2100*2000mm
Net Weight	1300Kg

Due to product upgrades, specific parameters may change slightly, for more specifications about this sweeping machine, please contact PIVOT Machinery.

Easy to control

Simple Control Panel
Easy to Operate with no
special training

Comfort to Drive

Safe and Comfortable
Driving Cab and Operating
Environment

Safe to Drive

Reverse Camera &
Reverse Radar, safety
first in the road cleaning.

Easy to Change

240L standard dustbin, quick change dustbin and minimizing the dumping time

Dust Control

Water spray to prevent the secondary dusty particles pollution when brooms rotating.

East to Maintain

Quality Brand Batteries
48V200AH Maintain free batterie.
48V/300Ah Lithium is optional
